POWER TEST FACILITY SYSTEM OF TRAIN AND
TESTING METHOD OF THE SAME

EXAMINER'S COMMENT

The drawings filed on Sep. 16, 2003 are acceptable subject to correction of the below informalities.

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the reference characters 1, 6, 7, 17, 21, and 23 which are not mentioned in the description.

Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference characters in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures.

In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

REASONS FOR ALLOWANCE

The following is an Examiner's statement of reasons for allowance:

Claim 1 has been found to be allowable over the prior art because the prior art fails to teach or suggest a train power test facility comprising:

in the case that a power of a train is tested in a DC section, the DC power facility, the control apparatus, and the load facility are separately connected about the test bed, and the control apparatus, the DC power facility and the load facility are connected in series for thereby performing a power test of the propulsion apparatus, and

in the case that a power of a train is tested in a AC section, the AC power facility, the control apparatus, and the load facility are separately connected about the test bed, and the control apparatus, the AC power facility and the load facility are connected in series for thereby performing a power test of the train.

Claims 2-12 have been found to be allowable over the prior art due to said claims' dependency on claim 1.

CONCLUSION

Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
